

FortiToken™-200 One-Time Password Token

Strong Authentication at Your Fingertips

The OATH compliant, time-based One-Time-Password (OTP) FortiToken-200 is part of Fortinet's broad and flexible two-factor authentication offering; it is a small, keychain-sized device that offers real mobility and flexibility for the end-user. There is no client software to install; simply press the button and the FortiToken-200 generates and displays a secure one-time password every 60 seconds to verify user identity for access to critical networks and applications. The big LCD screen of the rugged FortiToken-200 is much easier to read than other OTP tokens and there is an indicator on the screen displaying the time left until the next OTP generation.

Leverage Existing Fortinet Platforms

Besides offering out-of-the-box interoperability with any time-based OATH compliant authentication server, such as the FortiAuthenticator from Fortinet, the FortiToken can also be used directly with the FortiGate® consolidated security platform, including High Availability configurations. FortiGate has an integrated authentication server for validating the FortiToken-200 OTP as the second authentication factor for SSL VPN, IPSec VPN, Captive Portal and Administrative login, thereby eliminating the need for the external RADIUS server ordinarily required when implementing two-factor solutions.

Online Activation with FortiGuard®

You can activate your FortiToken-200 tokens online directly from FortiGate or FortiAuthenticator using the FortiGuard® Center, which maintains your token seeds in a managed service repository. Once the seeds are activated, they can no longer be accessed from FortiGuard, ensuring that your seeds are safe from compromise.

Highlights

FortiToken Advantages

- Reduces costs and complexity by using your existing FortiGate as the two-factor authentication server
- Unique online activation option via secure token seed repository hosted by FortiGuard minimizes provisioning overhead
- Perpetual token license eliminates annual subscription fees
- Scalable solution offers low entry cost and TCO
- Zero footprint solution

Main Features

- Integrated with FortiClient™ and protected by FortiGuard
- OATH TOTP compliant
- Large, easy-to-read, LCD display
- Long-life Lithium battery
- Tamper-resistant/tamper-evident packaging

Supported Platforms

- FortiOS 4.3 and up
- FortiAuthenticator – all versions

SPECIFICATIONS

TECHNICAL	
Onboard Security Algorithm	OATH TOTP (Time-based)
Component	Built-in Button 6 Character LCD Screen Globally Unique Serial Number
Hardware Certification	RoHS Compliant
Operating Temperature	-10°C to 50°C
Storage Temperature	-20°C to 70°C
Water-Resistant	IP54 (Ingress Protection)
Casing	Hard Molded Plastic (ABS) Tamper-Evident
Secure Storage Medium	Static RAM
Battery Type	Standard Lithium Battery
Battery Lifetime	3 to 5 Years
Customization Available*	Casing Color Company Logo Faceplate Branding

*Customizations are quantity-based
